Kärtchen zum Kletten oder Aufkleben ausschneiden:

Es gibt jeweils 3 Vorlage-Bögen und 3 Bögen mit dazugehörigen Kärtchen, die auf den Vorlagen passend anzuordnen sind. Die Kärtchen müssen ausgeschnitten werden und können dann entweder auf die Vorlagebögen geklebt oder als Klettkärtchen aufgeklebt werden.

Für die Klettvariante reicht es, nur den Satz grau umrandeter Kärtchen auszudrucken, sie passen zu allen Vorlagen und können variabel geklettet werden.

Die Klebevariante eignet sich besonders für Homeschooling, da das Anfertigen der Klettkärtchen entfällt. Zu jeder Vorlage müssen die entsprechenden Kärtchen ausgeschnitten werden.

Viel Spaß wünschen
